Cambridge Neuroscience Interdisciplinary Workshops

Following a successful bid to the Isaac Newton Trust, *Cambridge Neuroscience* invites proposals for a series of four funded workshops in neuroscience that will promote novel interactions between laboratories within Cambridge working in different areas of neuroscience.

A workshop may focus on a particular hot topic with speakers addressing the topic from very different perspectives. Alternatively, it may focus on a new research technique, exploring the different uses of that technique across different branches of neuroscience. Speakers should be a mix of PI's and senior postdocs.

We have held 7 different workshops on a variety of topics between 2015 and 2017 (see below), which have led to increased collaborations, joint funding bids, consolidation of communities and larger conferences. These workshops have been particularly successful in terms of networking, mentoring, collaboration and creativity.

1. **The Cambridge 7T MRI workshop (Professor James Rowe)**
   January 22nd, 2015
   Programme: [https://www.neuroscience.cam.ac.uk/events/event.php?permalink=d3b6cb9c6f](https://www.neuroscience.cam.ac.uk/events/event.php?permalink=d3b6cb9c6f)

2. **Cell biology of the axon: traffic, organelles and degeneration (Dr Cahir O’Kane)**
   April 20th 2015
   Programme: [https://www.neuroscience.cam.ac.uk/events/event.php?permalink=c78df86f2e](https://www.neuroscience.cam.ac.uk/events/event.php?permalink=c78df86f2e)

3. **Cambridge Neuroscience Workshop on Connectomics (Dr Mikail Rubinov)**
   September 8th 2015
   Programme: [https://www.neuroscience.cam.ac.uk/events/event.php?permalink=eadf1486e0](https://www.neuroscience.cam.ac.uk/events/event.php?permalink=eadf1486e0)
4. **Neurocomputation: from Brains to Machines (Professor Zoe Kourtzi)**
   November 25th 2015

5. **New Horizons in Pre Clinical MRI (Professor Angela Roberts)**
   April 27th 2016
   Programme: [https://www.neuroscience.cam.ac.uk/events/event.php?permalink=dd6e77f0cd](https://www.neuroscience.cam.ac.uk/events/event.php?permalink=dd6e77f0cd)

6. **The Inflamed Brain (Professor Alasdair Coles)**
   June 21st 2016
   Programme: [https://www.neuroscience.cam.ac.uk/events/event.php?permalink=7e1a96d129](https://www.neuroscience.cam.ac.uk/events/event.php?permalink=7e1a96d129)

7. **Exploring the future of myelin research in Cambridge (Dr Thora Karradottir)**
   May 11th 2017
   Programme: [https://www.neuroscience.cam.ac.uk/events/event.php?permalink=2be17f80aa](https://www.neuroscience.cam.ac.uk/events/event.php?permalink=2be17f80aa)

---

Apply here: [http://www.neuroscience.cam.ac.uk/form/](http://www.neuroscience.cam.ac.uk/form/)

The deadline for proposals is Friday 31st August 2018

*Workshops will be held in Michaelmas and Lent of the 2018/2019 academic year*

*For more information, please contact Dr Dervila Glynn or Professor Angela Roberts*
